THE STANDARD... BY WHICH OTHERS COMPARE

MODEL 430/435 COIN OPERATED LOCKERS

**MODEL 430
STAINLESS
STEEL**

**MODEL 435
GALVANIZED
STEEL WITH
CHOICE OF
COLOUR**

Coin Lockers are usually found in gyms, arenas, swimming pools, recreational facilities, athletic centers, clubs, shopping malls, convention centers and other places for safekeeping of people's money and other valuables.

For corrosive and high humidity environments and outside use, lockers made of stainless steel are best to withstand the adverse conditions. Under normal conditions lockers made from galvanized steel with choice of 30 colours will satisfy most users.

Master control cylinder and customer cylinder and key allow choice of coin return or coin keep. Coin lockers can also be token operated.

Other important features of these Coin Lockers: Double pan doors. Stainless Steel door pulls. Spring loaded hinges. Doors embossed for identification name or number plates. Cash box equipped with high security tubular key lock.

Available coin locker dimensions:

1 Tier - Height = 48"

1 and 2 Tiers - Height = 60"

1 to 6 Tiers - Height = 72"

Locker Width: 12" and 15"

Locker Depth: 12", 15" and 18"
