Weather resistant dust proof locks for outside installations, letter or card slots are also available

RIOPEL Model 1000 mailboxes combine quality, security and performance to provide a superior mailbox with unequalled reputation across Canada. **RIOPEL** Model 1000 is available in modules of 1 to 8 mailbox compartments enclosed within a wall box frame. Access for loading is gained by unlocking a Canada Post lock and pivoting the compartments forward. This lock is furnished and installed by Canad Post. **RIOPEL** Model 1000 is an improved model, and exceeds Canada Post specifications and is the vertical most familiar to the Postal Service.

COMPARTMENT SIZE

- 15-3/4" H. X 5" W. X 6" D. making RIOPEL Model 1000 the largest in the industry. Double size box available.

MOUNTING AND INSTALLATION

- Recessed in wall (6-5/8" depth required).
- Semi-recessed (3-1/2" depth required).
- Full surface mounting (Interior and Exterior).

DOOR LOCK

- 5 Pin cylinder cam type with 2 keys.
- 1000 key changes to avoid duplication.
- Extra keys available.

DOOR IDENTIFICATION

- Name and number slot on door
- Laminated plastic number tab and bell buttons available.
- Integrated or independent directories available.

FINISH

- Stainless steel with a highly polished satin finish and protected with a PVC plastic sheet peeled off after installation. Stainless Steel offers the best protection from abuse, lasts a lifetime and is highly attractive. Durable and attractive painted finishes.

RIOPEL surface mounting mailboxes are fully assembled avoiding the expense and time to assemble and install a separate kit. Internal and external models available.

M1000 - Semi-recessed
