THE STANDARD... BY WHICH OTHERS COMPARE

## MODEL 4000 - ANODIZED GOLD

The Model 4000 with gold anodizing will help create an outstanding lobby for the upscale apartment or condominium building. The rich gold finish will add a distinctive appearance to the building entrance. The durable anodized surface will keep its good looks for many years of maintenance free use.

Make your decor match and compliment these beautiful mailbox doors and you will have a truly impressive area of the building. The tenants and/or owners will appreciate the difference of such an appealing setting.

Call us for all details regarding this truly desirable addition to your apartment or condominium building.

For wall openings and all technical details concerning the Model 4000 please refer to page 211-1
